

PRODUCTS INCORPORATED

FOR PROFESSIONAL,
AUTOMOTIVE & INDUSTRIAL

10TH EDITION

Dear Customer,

Cumberland Products is an independently owned company founded in 1991 by my wife Jenny, and myself. We started Cumberland Products with one basic concept: put 100% virgin solvent in the container every time. At Cumberland, we are proud of this so on each solvent label we place the words 100% virgin solvents.

Through the years, our company has added many products to our line. We take great pride in our clears, primers, detail and masking products. We maintain the same degree of quality in these lines as we always have with our other solvent blends

Along with quality products, we provide quality service. At Cumberland we strive to practice the biblical concept of treating others as we would like to be treated ourselves.

To our customers, I say thank you for your business and friendship. To those thinking about becoming our customer, I would encourage you to give us serious consideration to become your supplier. Our management, production, sales, service, and technical people all stand ready to serve. We hope to hear from you soon.

Wayne Moore

Founder

Cumberland Products, Inc.

Cumberland Products will continue to be a stable, reliable source in the industry. We are a multi-generational company and we are here to stay. So you can rely on us for all your automotive and industrial needs.

CP 3170 - Premium High Solids Clearcoat

Superb high solid clearcoat using European resins to produce and retain brilliant gloss levels and long term durability. Superior to other clears due to ease of spray and ability to buff readily within 72 hours after application. This clear easily matches OEM appearance. Can be used over all basecoat systems, including waters.

ACTIVATORS: CP 3701, CP 3703, CP 3705, or CP 3707

Mix 2 parts 3170 to 1 part 3701/3703/3705/3707 to 1/2 part reducer CP-80/81/82/83

Apply 2 wet coats

Allow 10 minutes flash between coats

Pot life 5 Hours @75 °F

Can be sanded after: Air Dry: 12 hrs. @70 °F
Bake: 30 min. @140 °F
After 10 min. Purge

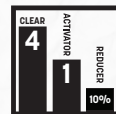

⚠ **WARNING:** Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP 3164 - Overall Clearcoat

A premium quality urethane clearcoat designed for multi-panel and overall application. Can be used over all basecoat systems, including water. You can choose from four activators to regulate flash times for different job sizes and shop conditions.

ACTIVATORS: CP 3701, CP 3703, CP 3705, or CP 3707

Mix 4 parts 3164 to 1 part 3701 / 3703 / 3705 / 3707. Optional 10% reducer CP 80/81/82/83

Apply 2-3 wet coats

Allow 15-20 minutes flash between coats

Pot life 4 Hours @72 °F

Can be sanded after: Air Dry: 10-12 hrs. @70 °F
Bake: 40 min. @140 °F
After 15-20 min. Purge

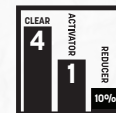

⚠ **WARNING:** Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP 3162 - Spot/Panel Clearcoat

Premium spot/panel clearcoat based on the latest resin system. Can be used over all basecoat systems, including water. You can choose from four activators to regulate flash times for different job sizes and shop conditions.

ACTIVATORS: CP 3701, CP 3703, CP 3705, or CP 3707

Mix 4 parts 3162 to 1 part 3701 / 3703 / 3705 / 3707. Optional 10% reducer CP 80/81/82/83

Apply 2-3 wet coats

Allow 10 minutes flash between coats

Pot life 3 Hours @72 °F

Can be sanded after: Air Dry: 6-8 hrs. @70 °F
Bake: 30 min. @140 °F
After 10 min. Purge

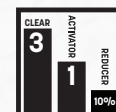

⚠ **WARNING:** Cancer. For more information go to www.P65Warnings.ca.gov

CP 3880 - Xpress Clear

Using the latest technologies, this clear can be buffed or wet sanded in approximately 90 minutes @ 70 degrees. This clear is designed to be used for spot/panel work due to the fast dry times. Can be used over all basecoat systems, including water. You can choose from four activators to regulate flash times for different job sizes and shop conditions.

ACTIVATORS: CP 3701, CP 3703, CP 3705, or CP 3707

Mix 3 parts 3880 to 1 part 3701 / 3703 / 3705 / 3707. Optional 10% reducer CP 80/81/82/83

Apply 2 full wet coats

Allow 5 minutes flash between coats

Pot life 1.5 Hours @70 °F

Can be sanded after: Air Dry: 90 min. @72 °F
Bake: 10 min. @120 °F

CP 6600 - Direct to Metal Primer/Surfacer

CP 6601 Direct to metal Activator

CP 6600 is a 2.1 VOC high build direct to metal primer/surfacer. It is VOC compliant in all 50 states and is isocyanate free. CP 6600 has excellent adhesion to cold rolled steel, aluminum, galvanized, galvaneal, and body filler. It has excellent corrosion resistance when applied to any bare metal, thereby eliminating the pretreatment primer step. It also has excellent leveling features and sands easily. It is medium gray in color and has superior chemical resistance, eliminating the need for primer in many applications.

ACTIVATOR: CP 6601

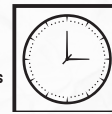

Mix 4 parts 6600
to 1 part CP 6601

Apply 2
wet coats

Allow 10-15
minutes flash
between coats

Pot life 5
hours @75 ° F

Can be sanded after:

E3200 - Urethane Clear

E3200 Clear works well over color systems. Can be used over all Basecoat systems, including water. E3200 has excellent leveling properties and gloss retention. This clear is an excellent economical alternative for shops where warranty is not an issue

ACTIVATORS: E3201 or E3202

WARNING: Cancer. For more information go to www.P65Warnings.ca.gov

E3221 - 2.1 Urethane Clear

E3221 Clear works well over color systems. Can be used over all Basecoat systems, including water. E3221 has excellent leveling properties and gloss retention. This clear is an excellent economical alternative for shops where warranty is not an issue. E3221 is 2.1 VOC compliant making it a great choice for shops in compliant areas

ACTIVATORS: E3231 or E3232

WARNING: Cancer. For more information go to www.P65Warnings.ca.gov

E3275 - European Clear

An economical 2:1 mix acrylic urethane clearcoat designed for universal use. This is a high/solids clear that works well in air dry or baking applications. Can be used over all basecoat systems, including water. Excellent gloss durability.

ACTIVATORS: E3810, E3811, E3812

WARNING: Cancer. For more information go to www.P65Warnings.ca.gov

E2501 - 2.1 VOC European Clear

E2501 is excellent for overall work and for force dry application. This clearcoat is compliant in all 50 states as well as Canada and features great flow and leveling. Ideal for producing a deep, long-lasting gloss.

ACTIVATORS: E2502, CP 2503, E2504

WARNING: Cancer. For more information go to www.P65Warnings.ca.gov

E6000 - 2K Urethane Primer

E6000 2K Urethane Primer is an economical, quick drying, two component urethane primer/surfacer. E6000 has medium to heavy build properties yielding excellent filling and surfacing results.

ACTIVATORS: E6001

WARNING: Cancer. For more information go to www.P65Warnings.ca.gov

E6330 - 2.1 VOC 2K Urethane Primer-Surfacer

A Low VOC super high build primer-surfacer. Designed for use under all single stage or basecoat clearcoat systems. Excellent adhesion to cut through bare metal areas and direct to unsanded e-coat, for undersides of hoods, fenders, and jambs with superior sandability.

ACTIVATORS: E6331

WARNING: Cancer. For more information go to www.P65Warnings.ca.gov

CP 1500 - Wet Look

A premium quality acrylic enamel catalyst that allows paint to flow out and cure to a brilliant gloss. Out-performs most other paint products in flow out and gloss retention.

WARNING: Cancer. For more information go to www.P65Warnings.ca.gov

CP 9600 - Universal Flex Additive

A quality product that gives greater elasticity to paint systems. For use on bumpers and flexible parts to reduce cracking or chipping. For use in all Acrylic Lacquers, Acrylic Enamels, and Urethane Paint Systems

WARNING: Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP 9950 - Fisheye Eliminator

9950 is a high quality product to help eliminate fish-eye or cratering in topcoats. This product is not intended to be a replacement for proper preparation using wax and grease removers and pre-cleaner. Follow label directions carefully.

CP 88 - Accelerated Reducer

Speeds up dry time! Cuts drying time in half when used with all clearcoats except CP3831 Quick Cure Clearcoat. 2.1 VOC compliant. Do not use with our primers.

PROFESSIONAL USE ONLY

CP 8915 - Flexi-grip

This product creates a strong adhesion of primers and paint to all types of automotive plastics and rubber parts. Non-isocyanate.

WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP 8920 - Satin Black Trim & Bumper Paint

A quality paint that adheres to urethane, rubber, and metal. Recoats discolored bumpers. Flexible. Needs no primer.

WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP 8611 - Paintable Rubber Undercoat

A premium quality rubber based coating designed for undercarriages, trunks, and fender wells. Excellent sound and deadening properties. Dries quickly and is paintable in 30 mins. Should not be used as a paintable rock guard.

WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP 9100 - Safety Solvent

Completely non-flammable. Ozone safe, no CFCs. Fast drying. Power-flushing action. No petroleum distillates. 36,200 volt dielectric strength.

Use on energized electrical equipment

CP 8430 - Gun Cleaner

This product is great for on-the-fly spray gun cleaning. It works to clean both waterborne and solvent based products.

WARNING: Cancer. For more information go to www.P65Warnings.ca.gov

CP 8925 - Under the Hood Flat

Premium Gloss black paint for under the hood, fender wells, frames, trunks, or other indirect sunlight areas.

WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP 8927 - Under the Hood Gloss

Premium Flat black paint for under the hood, fender wells, frames, trunks, or other indirect sunlight areas.

WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP 8750 Cut in Clear

This product is a unique 1K Clearcoat. CP 8750 is excellent for clear coating color test panels, edging fenders, door edges and jambs. Dries quickly for faster handling time. NOT SUITABLE FOR EXTERIOR FINISHING THAT WILL BE EXPOSED TO THE ELEMENTS.

WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP 8800-A Glass Cleaner

Cumberland Products glass cleaner is a ammoniated formula designed to quickly and effectively remove dirt, grease, and other contaminants without streaking.

CP 8896 Gray High Build Primer

Is a premium quality High build aerosol primer. Comes in two colors: Black and Gray.

CP 8897 Black High Build Primer

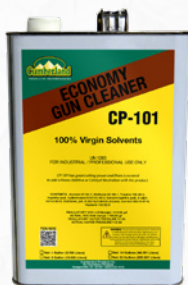

Is a premium quality High build aerosol primer. Comes in two colors: Black and Gray.

**CP 626 White Seam Sealer
CP 626B Black Seam Sealer**

A premium quality high rubber content seam sealer that cures quickly. Tools very smoothly and has a slight re-flow after tooling so edges and fingerprints disappear.

WARNING: Cancer. For more information go to www.P65Warnings.ca.gov

CP 101 - Gun Cleaner

CP 101 is an economical alternative gun cleaner and has great cutting power.

WARNING: Birth Defects and Reproduction Harm. www.P65Warnings.ca.gov.

CP 92 - Plastic and Fiberglass Part Cleaner

This product is a premium mold release agent cleaner for plastic and fiberglass parts that also helps eliminate static charge.

WARNING: Birth Defects and Reproduction Harm. www.P65Warnings.ca.gov.

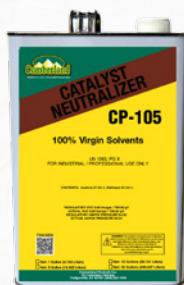

CP 106 - Power Additive

When using a "cheap wash thinner" for your gun wash solvent, add CP 106 to make a stronger cleaner.

WARNING: Birth Defects and Reproduction Harm. www.P65Warnings.ca.gov.

CP 105 - Catalyst Neutralizer

If you have gun wash solvent in your tank that is clogging up your equipment, just add CP 105 to prevent it from occurring again.

5800V - Vintage Matte Black

Vintage Matte Black 5800V is a 2 component acrylic urethane coating. 4:1

Matte Black is a excellent coating for restoration, stripping, coating frames, engine compartments, or any place a primer like coating is needed. This coating is formulated to withstand the same atmospheric conditions as any single-stage urethane system.

Compatible surfaces: Rigid Plastic, Self-etch and Epoxy primers, polyester and urethane primers, OEM Finishes.

ACTIVATORS: MED 5801V or SLOW 5802V

Mix 4 parts 5800V to 1 part 5801V or 5802V ACT

First Coat: Apply 1 full wet coat.
Second Coat: Apply 1 Medium Coat.
Recoat - 24 hours

Allow 5-10 min. flash time between coats

Pot life 1 hour

Air Dry: 6-8 hours
Bake: 10 min. @120° F

WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

Vintage Satin Colors - 2.8 VOC

Vintage Satin Colors are a 2 component acrylic urethane coating. 4:1

Satin Colors are a excellent coating for restoration, stripping, coating frames, engine compartments, or any place a primer like coating is needed. This coating is formulated to withstand the same atmospheric conditions as any single-stage urethane system.

Mix 4 parts satin color to 1 part 5811V or 5812V

Apply 1 full wet coat followed by 1 medium coat

Allow 5-10 min. flash time between coats

Pot life: 1 hours @72° F

Air Dry: 6-8 hrs @72° F
Bake: 10 min. @120° F

3820V - Vintage Matte Clearcoat 2.1 VOC

Vintage Matte Clearcoat 3820V is a 2 component, 2 coat acrylic urethane coating. It mixes in 3 different ratios with 3821V Activator to achieve different gloss levels. One Clear - Three Finishes: Flat - 4:1, Eggshell - 5:1, and Semi-gloss - 6:1

Easily applied to eliminate the striping associated with other matte clear finishes. This product does not fingerprint or smudge!

ACTIVATORS: 3821V

Mix 6 parts clear to 1 part ACT = Flat Finish
Mix 5 parts clear to 1 part ACT = Eggshell Finish
Mix 4 parts clear to 1 part ACT = Semi-Gloss Finish

Apply 1 full wet coat followed by 1 medium coat

Allow 5-10 min. flash time between coats

Pot life 1 hour

Dry to Sand 6-8 hours

WARNING: Cancer. For more information go to www.P65Warnings.ca.gov

SFC-7015 - Gloss Black Rust Preventive Coating

A high solids, single-component, underbody coating formulated to permanently stop corrosion. It protects a variety of substrates from water, chemical, salt, and other corrosive contaminants. It stops rust when applied over a properly prepared rusted surface. The durable coating dries to a flexible, rock-hard finish that will not crack, flake, or peel. VOC compliant in North America.

Available in quarts and gallons

Ready to Spray
DO NOT SHAKE
Stir thoroughly

Apply 2-4
Medium
Wet Coats

Air Dry - 77° F @ 50% relative humidity
To Recoat: 3 - 8 hrs. Depending on temp & humidity
To Topcoat: 3 - 24 hrs. (after 24 hrs, sand with 400 grit)

WARNING: Cancer. For more information go to www.P65Warnings.ca.gov

SFC-7017 - Gloss Gray Rust Preventive Coating

A high solids, single-component, underbody coating formulated to permanently stop corrosion. It protects a variety of substrates from water, chemical, salt, and other corrosive contaminants. It stops rust when applied over a properly prepared rusted surface. The durable coating dries to a flexible, rock-hard finish that will not crack, flake, or peel. VOC compliant in North America.

CP-120 All Purpose Cleaner

Perfect for cleaning the entire vehicle. Safe and Gentle to use on painted metal and other surfaces. Biodegradable

Concentrate - must be diluted.
For optimum results, dilute with warm water.

⚠ WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP-130 Wheel Cleaner

Effective and safe on all OEM wheels.
Do not use on glass

For best results, use full strength
Ready to Spray

⚠ WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP-140 Car Wash Soap

Attacks and lifts road film. Medium viscosity that can be easily rinsed off. High Sudsing and biodegradable

Concentrate - must be diluted.
For optimum results, dilute with warm water.

⚠ WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP-160 Multi-purpose Degreaser

Cuts through heavy build up of grease, dirt, and oil. An aggressive cleaner that works great on engines, driveline, and heavy equipment.

Concentrate - must be diluted.

⚠ WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP-180C Concentrated Glass Cleaner

Works great on chrome and glass. It's alcohol-butyl based and Biodegradable

Concentrate - must be diluted 4:1
For optimum results, dilute with warm water.

⚠ WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP-220 Non-Silicone Tire Dressing

Dramatic results without silicone. A thin formulation that works well on tires, moldings, weather seals and other non-paintable rubber and plastic surfaces.

Ready to Spray

⚠ WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP-240 Cleaner Wax

Provides protection from UV rays, acid rain, and other contaminants. Restores weathered, oxidized, and lightly scuffed finishes.

Shake well before using. Use on a clean, cool, and dry vehicle.

⚠ WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP-260 Final Detail Wipe

An excellent showroom maintenance product that works without water on a variety of surfaces, including paint, chrome, and glass.

RTS - Ready to Spray

⚠ WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP-280 Wash and Wax

Effective, viscous, concentrate car wash that leaves a surface protectant while leaving a high gloss shine on clear coated finishes.

Concentrate - 2 capfuls (1 ounce) to 1 gallon of water.

WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP-300 Water Based Tire Dressing

Can be used on rubber moldings and vinyl.

Ready to Spray - High Gloss, 1:1 - Semi Gloss, 2:1 - Flat

WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

Amazakleen Detail • Mechanical • Industrial

High quality multi purpose cleaner. Cleans smoke deposits, fingerprints, light rust, mildew, soot, lube oil, old wax, fresh paint, crayon marks, grease, road film, inorganic oils, lipstick marks, bacterial odor and more.

Just spray and wipe

CP 3600 Plastic Sheen 1K Clearcoat

Restore your plastic surfaces to their original sheen. Developed to restore gloss to automotive trim, moldings, impact strips, tires, and interior pieces. Protects parts against fading. UV resistors. Fast Dry. Body shop safe. No haze or oily film.

Cleaner: CP-3601

The Illuminator Headlight Renew

2.1 VOC compliant. With our system, you don't polish, you reapply a UV protective coating. Increase visibility 600-1000%. Improve driving safety and night visibility. Easy 7 step process.

Private branding available for the Cumberland Detail line

E100 Wheel Cleaner

- No Dilution Required
- Specifically Designed to Remove Brake Dust from Wheels
- Safe on OEM Wheels
- Spray-on Rinse-off Formula

CP 8430 - Gun Cleaner

This product is great for on-the-fly spray gun cleaning. It works to clean both waterborne and solvent based products.

⚠ **WARNING:** Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

DON'T RISK CLEANING YOUR GUNS WITH RECLAIM

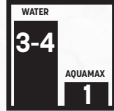

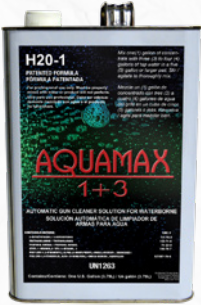

H20-1 - Aquamax 1+3

Automatic Gun Cleaner

A cleaner/detergent for ALL water-based/waterborne coatings. A blend of water soluble solvents and additives designed for automatic spray gun cleaning. Can be used for quick, effective manual cleaning. It quickly dissolves dried waterborne/waterbase coatings and both cleans and protects spray equipment.

Available in both National Rule and Compliant Formulas

Sold 4 gallons per case (freight) and 2 gallons per case (UPS)

Mix 1 gallon H20-1 to 3 or 4 gallons of tap water

Stir / Agitate until thoroughly mix in a 5 gallon or large pail

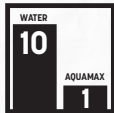

H20-2 - Aquamax Lite

Manual Gun Cleaner

A patented multi-purpose cleaner/detergent that cleans ANY water coating. Simple and convenient with variable mixing ratios for any manual applications. Eliminates the need for multi-step cleaning procedures. Leaves no film or residue and can be coagulated. It doesn't settle and requires no re-stirring. Greatly reduces cleaning efforts and increases productivity and is priced less than any competitive product.

Available in both National Rule and Compliant Formulas.

Sold 12 quarts per case

Mix 1 Quart H20-2 to 10-20 liters of tap water

Stir / Agitate until thoroughly mix

H20-3 - Aquamax Lite

Manual Gun Cleaner Aerosol

It's the first waterbased aerosol formulated to clean 100% of all waterbased and waterborne coatings. A true one step product and cleans thoroughly with no residue. Can be used as a pre-rinse cleaner or for complete cleaning. Reduces cleaning time and effort by eliminating the need for multi-step cleaning. Easy control finger tip activator. Spray wand is included.

North America compliant

Sold 12 aerosols per case

CP 7100 - Booth Coating White

Fast drying liquid masking material. Prevents primer, paint, and various oversprays from sticking on painted surfaces. Dries to a tack free film in 20-30 minutes. No specialty equipment needed. Ready to Spray (RTS)

⚠ WARNING: Cancer, Birth Defects and Other Reproductive Harm. For more information go to www.P65Warnings.ca.gov

CP 7110 - Booth Coating Clear

Fast drying liquid masking material. Prevents primer, paint, and various oversprays from sticking on painted surfaces. Dries to a tack free film in 20-30 minutes. No specialty equipment needed. Ready to Spray (RTS)

CP 7000 - Spray Mask

CP 7000 Liquid Spray Masking is a fast drying liquid masking material. It prevents primer, paint and various types of overspray from sticking on cured painted surfaces. Our liquid spray masking dries to a tack free film in 20-30 minutes and requires no special equipment to apply. CP 7000 can be easily and thoroughly rinsed off with water.

CP 7200 - Dust Control

Dust Control is a statically charged water based clear liquid designed to attract and hold dust on spray booth floors and other dusty work areas. It attracts dust and dirt holding the particulate on ground level.

CP 228 - Scuff & Prep Agent CP 227 - Scuff & Prep Agent

Cleans and scuffs at the same time. Rises easily.

CP 5831 - Bedliner Black CP 5835 - Bedliner Tintable

A two component urethane coating used to coat truck beds, frames, truck interiors, floor pans, inside door skins, and wheel wells.

Activators 5837 or 5839

OUR PROMISE TO YOU...

CUMBERLAND PRODUCTS INC. LIFETIME PRODUCT WARRANTY

Cumberland Products Inc. hereby warrants to our Customers, exclusively upon the terms of the warranty, all Cumberland automotive refinish products used by our Customer upon the following conditions:

1. A qualified technician performed the repair.
2. Appropriate products were used to perform the type of repair (including recommended types of basecoats).
3. Proper determination is made that failure was due solely to Cumberland products.

If these conditions are met, Cumberland Products will provide the following warranty protections:

If a Cumberland product is determined to be the sole cause of refinish failure, Cumberland will provide a credit for sufficient materials and reasonable labor necessary to repaint the vehicle. This warranty is a lifetime product warranty for the owner of the vehicle at the time of repair. Proof of ownership is the burden of the customer. Labor will be determined by the current market labor pricing and hours will be based on the current collision repair manuals (Mitchell or Motors).

WARRANTY EXCLUSIONS:

This warranty does not cover the following; rust failure; chips; chemical spotting; scratches and abrasions; failure due to previous repair; OEM finish failure; exposure to environmental pollution or contamination; collision damage; commercial vehicles: application on plastic or composite parts (there are too many reasons for failure on these substrates); damage caused by use of improper detergents, waxes or abrasive; damage due to contact with harsh chemicals, corrosives or flammables; failure or damages due to poor workmanship, improper use, application, handling or storage or disposal of Cumberland products; or, an act of God or third party. Cumberland reserves the right of testing any questionable claim and will provide the results to Customer. Proof of Cumberland product use is the burden of the Customer.

It is the intention of Cumberland Products Inc. to supply defect-free products and to ensure that quality to our Customers.

Cumberland Products reserves the right to terminate this warranty at any time. This warranty will only apply with respect to Customer application of Cumberland products during the existence of, and in accordance with, this warranty. This warranty is between the Customer and Cumberland Products only, and is not transferable to the vehicle owner.

Thank you,

Cumberland Products Inc.
